## **v1**

The power of Your hand is mighty, for You calm the raging sea  
You're majestic in Your glory, yet You reveal Yourself to me  
All the world beholds Your greatness. The universe is filled with awe  
But Your children know Your purpose, You fill our hearts with who You are

## **Chorus**

And Lord I come to worship You, in all of Your glory faithful and true  
I don't come for what You do, Lord I only come to worship You

## **v2**

Moses saw Your hand in Egypt, Daniel survived the lion's den  
David overcame Goliath, You have shown Your power to men  
But now we're longing just to know You, mighty deeds we do not seek  
Let us come before Your presence, let us worship at Your feet

## **Chorus**

And Lord I come to worship You, in all of your glory faithful and true  
And I don't come for what You do, Lord I only come to worship You

## **Bridge**

We are seekers of Your glory, satisfied with nothing less  
Only hungry-thirsty find You, they are filled with righteousness

## **Chorus**

And Lord I come to worship You, in all of your glory faithful and true  
And I don't come for what You do, Lord I only come to worship You  
I only come to worship You  
I only come to worship You
