V.1

In the Colorado Rockies through the Oklahoma rains
There's a river draggin' dirt along the way
To the muddy Mississippi through the hills and through the plains
Til it finally dumps it out into the bay

V.2

Whether raftin' in the Royal Gorge or irrigatin' crops
This river makes a lot of peoples' way
It may be turnin' big electric dams or siftin' sand and rocks
So those folks can make a livin' every day

Bridge

From the mountain men livin' in the air that's cold and thin
To the snakes and alligators in the swaaaaa-uuummp
There's not a single people who can lay a total claim
To the mighty waters of the Arkansas
