Vs. 1

I don't wanna talk of leavin' not while you are so near
I just wanna be believin' that you could just here

Chorus

Stay awhile with me, in your arms is where I want to be
Tomorrow is another day and you might have to go away
But for now you could stay awhile with me. (*repeat last time*)

(*tag, last chorus*) Stay awhile with me

Vs.2

They say dreams are just a dozen for a dime, I don't know if that's true
But I could spend a million lifetimes, dreamin' about you... (*to bridge*)

Bridge

If the world should stop turning, I'd be happy as could be
As long as I was holding you right here next to me. (Chorus)
